

Patient's Own Frame Waiver

Dear Patients,

- We are happy to make your new prescription lenses for your own frame if it is in good condition.
- If we accept your frame to fit with new lenses, we pledge to take the utmost care in handling it.
- In a small percentage of cases, the frame material maybe worn or brittle due to age and in these cases the frame may not support a new pair of lenses. Often times it may be difficult or impossible to determine the condition of the frame material and whether it is likely to break.
- If your frame does break during our lens insertion process, the lenses we made for your frame most likely cannot be placed into a different style frame.
- However, if this occurs, we will make all reasonable efforts to fit your new lenses into a new frame of your choosing. But, the cost of the replacement frame is your responsibility.
- By signing below, you are indicating that you understand and agree to the conditions of this waiver.
