

**Carbon Valley  
Eye Care**

Dr. Michael Koditek, O.D., FAAO  
Dr. Taylor Kiyota Jackson, OD  
Dr. Matt Winkler, OD

## **PEDIATRIC DILATION CONSENT**

(newborn - 3 years)

Dilating drops enlarge the pupil, which allows your optometrist to get a better view of the inside of your child's eye. This is part of a comprehensive eye exam.

These drops cause blurred vision and light sensitivity that typically lasts 4-6 hours.

### **Consent for Minor**

**MARK ONE:**

I accept dilation as recommended by my doctor

I decline the dilation. I understand that this may result in missed or delayed diagnosis and I accept this risk.
